Pasquale Ragozzino

Data di nascita: 25/08/1989 | **Nazionalità:** Italiana | **Sesso:** Maschile | **Numero di telefono:** (+39) 3930288394 (Cellulare) | **Indirizzo e-mail:** pasquale.ragozzino89@gmail.com |

Google Hangouts: pasquale.ragozzino89 | **Skype:** pacos2589 |

Indirizzo: Via R. D'Angiò, 17, 81055, SANTA MARIA CAPUA VETERE, Italia (Abitazione)

ESPERIENZA LAVORATIVA

01/02/2022 – ATTUALE Italia

CTO GAMINDO

As CTO my focus falls on 8 main points:

- ***Technology*** strategy: responsible for defining the technology strategy based on the business objectives and what the technology 'market' offers as a solution.
- ***IT Innovation***: responsible for evaluating new technologies to scale, improve, reduce costs, automate processes.
- ***IT Architecture***: responsible for the architectural design of products/services in order to verify the effective scalability, reuse, correct effort of the proposed solutions.
- ***IT Security***: responsible for the implementation and definition of corporate policies relating to the IT security of environments.
- ***IT supplier management***: responsible for the interaction and relationship with technology suppliers serving the company.
- ***Technical infrastructure monitoring***: Responsible for managing and analysing logs/traces and troubleshooting related issues.
- ***Monitoring technical innovations***: responsible for validating new solutions/technologies offered by the market and studying them with a view to evaluating their adoption.
- ***IT team management***: responsible for the IT department and managing the work of developers/UI/UX designers. The aim is to always ensure that the team has the right tools and skills to face the daily challenges. Responsible for the planning and allocation of projects and their evaluation after completion.

In the company, I first introduced the concepts of:

- SSO
- Caching
- Transitions
- Queue processes management
- Cloud
- GenAI
- Containerization

The technologies and languages used are:

- PHP7.3 or >
- NodeJs
- Typescript
- Go
- Python

24/08/2020 – 31/01/2022 Italia

TECH LEAD SUPERMONEY S.P.A.

As Tech Lead I am in charge of managing and organising the work of the individual team resources. In addition, I am in charge of the requirements analysis phase of the individual projects assigned, the related design of the hw/sw solutions and the drafting and organisation of the related epics, stories and tasks. Adoption of AGILE methodologies. Reorganisation of SW architecture (monolithic) and bottom-up decomposition into microservices according to SOLID principles.
Design and development of recurring SDD collection system. Integration to third-party APIs and management of payment flows.
TECHNOLOGIES AND METHODOLOGIES USED:
- Symfony 4.X,5.X
- Javascript
- Typescript

- Docker image/compose
- Git (Gitlab)
- Mysql
- TDD
- Node.js

03/02/2020 – 31/07/2020 Milano, Italia

TECH LEAD TALKS S.R.L.

Tech lead DEVOPS and full-stack development.
In particular:
- I managed the analysis and design of an automated third-party integration system for the creation of advertising ssp placements;
- I designed and implemented a product dashboard, re-engineering some sections of an old monolithic application;
- I developed the entire application DEVOPS flow, re-engineering monolithic applications by breaking them down into microservices;

Technologies used:
- Laravel 6.X;
- Lumen 6.X;
- Symfony 3.X, 5.X;
- MongoDB;
- MySql;
- PHP 7.3;
- TypeScript;
- Vue.Js 3.X (Vuex, Vue-Router, etc.)

02/2018 – 24/01/2020 Napoli, Italia

SOFTWARE ENGINEER BUZZOOLE S.R.L.

Via Vannella Gaetani , Naples
https://buzzoole.com
- Analysis and development of validation algorithm and social token refresh (Facebook profile/page, Instagram, Twitter);
- Analysis, design and development reporting by Nielsen;
- Analysis, design and development APIs JWT token authentication;
- Analysis, design and development of socials channel activity price entry system;
- Analysis, design and development auto-post spread algorithm;
- Analysis, design and development of blog scraping & articles fetching algorithm;
- Analysis, design and development of user deep geolocalisation system;
- Analysis, design and development of APIs for the new Brand Area;
- Analysis, design and development of APIs for the integration and creation of PPT documents and graphics through the use of Google Slide APIs

TECHNOLOGIES USED:
- Laravel 4.X
- Laravel 5.X
- Lumen 5.X
- Docker image/compose
- AWS architecture;
- Git (Bitbucket, codecommit, Github, Gitlab;
- MongoDb, Postgresql, MariaDb, Redis;
- Beanstalked queue;
- CI/CD with CircleCI

01/07/2019 – 01/10/2019 Napoli, Italia

SCRUM MASTER BUZZOOLE S.R.L.

During this period I held the position of Scrum Master and in particular I was responsible for the management of the backlog (and related Sprints, Epics), the communication and orchestration of projects shared with the Product department, the management of Sprints and related Retrospectives.

01/03/2017 – 20/01/2018 Napoli, Italia

TECH LEAD PAYMOVE S.P.A.

Per circa 1 anno ho gestito nuove risorse introdotte in società, gestendo il carico di lavoro, la suddivisione dello stesso e valutando con il CTO le diverse soluzioni applicative basate su tecnologie diverse.
Ho partecipato alle riunioni di progettazione delle soluzioni tecnologiche proposte, producendo in una prima fase dei prototipi funzionali e poi, una volta validati, sviluppando la documentazione necessaria per lo sviluppo ed il testing.

Ho seguito risorse laureande nel percorso di tirocinio di laurea, accompagnandole alla stesura delle tesi di laurea.

23/03/2015 – 20/01/2018 Napoli
SOFTWARE ENGINEER PAYMOVE S.P.A.

I was responsible for the analysis, design and development of 7 application areas:
- INTRANET: corporate backoffice, virtual warehouse
- EXTRANET: customer dashboard (homebanking), dealer dashboard
- BATCH and PROCEDURES: RID collection procedures, automated statement generation, procurers statement generation
- COMMERCIAL AREA: payment gateway, recurring payments, SDD, reporting and statistics area
- ADMINISTRATIVE AREA: dynamic contract generation, administrative support area
- ACCOUNTING AREA: automation of collections, card auto-commissioning system
- SUPPORT AREA: company CRM, company live-chat.

Technologies used:
- PHP 5.6.10, 7.0;
- Laravel 5.4, 5.5
- MySql;
- JSON, XML;
- Javascript;
- Jquery/UI;
- AJAX;
- Vue.js;
- Bootstrap 3/4;
- HTML 5;
- CSS3/Media query/SASS/LESS;
- J2EE;
- C#.

02/01/2015 – 20/02/2015 Telese Terme, Italia
FULL STACK DEVELOPER LA SCIRE S.R.L.

- Analysis, design and development of the company web platform (backoffice, extranet and website);
- HW and SW systems engineer of the company network.

Tenologies used:
- HTML 5;
- CSS3;
- Javascript.

01/09/2014 – 07/11/2014 Napoli, Italia
IT ANALYST T & C SYSTEMS GROUP

- Analysis, design and development of an enterprise web platform with information retrieval engines;
- Analysis, design and development of tokenization, lemming and editing algorithms;
- Extension and management of the corporate DB;
- Front-end development of corporate CV search engines;

Technologies used:
- J2EE;
- Mysql;
- Apache Lucene;
- Apache Tomcat;
- Glassfish;

ISTRUZIONE E FORMAZIONE

2009 – 2014 Napoli, Italia
INGEGNERE INFORMATICO Università Degli Studi Di Napoli Federico II

-Basic Mathematic, Physic and Computer Science Concepts -Computer Architecture -Advanced Mathematic -Electrical Circuits
-Programming Object Oriented -build a DataBase + project based on the construction of a Bank Database using Oracle DBMS and Web Interface -Automatic Control - Multimedia System + -Computer Networking -Software Engineering -

Operating System and Concurrency programming -Numeric Transmission -Signal Processing -Mobile Network Protocol -Basic electronics

Title: Programming in Apple Swift 2
Project: Apple Swift 2 is the innovative programming language made in Apple, designed and created specifically for programmers. In this one brand new release exception handling has been introduced, powerful new code flow controls and a new code environment development even richer in support for developers. Speed, versatility and power are the foundation of this incredible new programming language.
This manual will cover basic and advanced elements without neglect the learning needs of basic users, nor the willingness of the most experienced and expert users to update, thanks to numerous application examples and the numerous lines of code rendered available for free download to test "hands-on" the power and the syntactic simplicity of Apple Swift 2.
The basic and advanced notions learned in this manual they will be necessary and sufficient for every programmer to do so development and publication of apps for Mac, iPhone, iPad and Apple Watch. At the basis of software development there is always the study of reference manual; with this purpose "Programmare in" was born Apple Swift 2".

COMPETENZE ORGANIZZATIVE

Competenze organizzative

Excellent management and organization skills of workloads, work structure acquired thanks to my professional experience and my engineering studies.
In the last 2 years I have worked with AGILE methodologies, and in particular in Smart Working mode.
I managed teams of undergraduates/new graduates finalizing or initializing their professional training process. I was Scrum Master of a team of 5 people, achieving results that met expectations.

COMPETENZE COMUNICATIVE E INTERPERSONALI

Communication and interpersonal skills.

Excellent language skills developed thanks to my work experience as a commercial agent, thanks to my high school studies.

COMPETENZE PROFESSIONALI

Competenze professionali

- Consultant skills for suggestions and purchases aimed at commerce 2.0;

- Use of the Terapeak professional platform for in-depth market analyzes on channels such as EBAY and AMAZON.
